## Experience

01/2019 – 01/2023

### **Node.js backend developer at ApiTree**

At ApiTree, we created and successfully released a complete new web portal for a major energy company and their customers.

As part of the backend development team I am using among other:

*TypeScript, GraphQL, MongoDB, Redis, Git, CircleCI, Docker, Kubernetes in Azure, Helm, Kibana.*

11/2014 – 12/2018

### **ERP Product support analyst at Infor and CDK**

As a product support analyst at a major global company in the finance department team, I analyzed the technical issues of customers through internal reproductions and trace file analysis.

## Education

9/2012 – 2/2016

### **Business administration**

Czech University of Life Sciences Prague - faculty of economics  
Finished with the title Ing. (master's)

9/2009 – 6/2012

### **Business and culture**

Czech University of Life Sciences Prague - faculty of economics  
Finished with the title Bc.

3/2014 – 8/2014

### **Exchange student program in South Korea**

Chonnam national university in Gwangju  
Lectures held in English
